

on the road they travel in Jimmy's forty-five foot customized tour bus. The band's travels have taken them to some of the most prestigious venues in the world, including Carnegie Hall, where they played seven sold out shows, The Lincoln Center in New York, and The Palace of Culture in Warsaw, Poland where the band received seven standing ovations.

The Band appears annually at many of the top casinos in the country including the Tropicana and Taj Mahal in Atlantic City and the Stardust Hotel and Casino in Las Vegas, where Jimmy was the first polka band to be booked by a major casino on the Strip. The sellout crowds at these events keep coming back for more wherever they see the band scheduled.

Today, Jimmy lives in the house where he grew up, and his office is across the street from the high school he attended in the upstate village of Florida, NY with a population of 1,800. His hometown recently honored Jimmy by placing a "Star of Fame" in the walkway on Main Street. They also display "Hometown of Polka King Jimmy Sturr" signs at each entrance to the village. Five gold albums, each representing five million dollars in sales, are displayed on his office walls, where he runs his various businesses, including United Polka Artists, Starr Record Company, Jimmy Sturr Travel Agency, a publishing company and a syndicated radio show.

A full scholarship gave Jimmy the opportunity to attend and graduate from Valley Forge Military Academy and the University of Scranton. Among his many accolades, and something Jimmy is very proud of, is his selection by The Valley Forge Military Academy as "Man of the Year". He was honored with a full-dress parade in front of the Corp of Cadets at VFMA.

No one has done more for the polka field than this young Irishman from the little village of Florida, NY. If you want to see the best polka music in the country, plan to see Jimmy Sturr and his orchestra!
